## Future Growth Project - Wellhead Pressure Management Project

### *General Information*

- In 2016, TCO Partners announced approval for the final investment decision of the Future Growth Project - Wellhead Pressure Management Project (FGP-WPMP), the next major expansion of the Tengiz oil field.
- FGP will expand production by approximately 12 million tonnes per year/260 thousand barrels per day to about 39 million tonnes per year/850 thousand barrels per day.
- WPMP will keep the existing Tengiz plants full by lowering the flowing pressure at the wellhead and then boosting the pressure to the inlet requirements of the six existing processing trains.

### *Kazakhstani Content*

- Since the commencement of FGP-WPMP, TCO has spent over \$13.6 billion to purchase Kazakhstani goods and services.

### *Project Progress*

- Recent key project milestones include completion of control room migration into the Integrated Operations Control Center (IOCC), Cluster 55 Ready for Operations (RFO), and activation of the core substation as the central power hub for TCO's operations in Tengiz.
- With the project now 90% complete, the remaining work scope is focused on Tengiz.
- FGP-WPMP is a project of national importance and is helping to create a legacy of a trained and skilled local workforce, technology transfer through partnerships with international companies, and upgraded infrastructure in the region.
